Parent's Meeting & Book fair

“A parent is a teacher at home and a teacher is a parent in school and the child is the centre of our universe.”

Every school aims at the holistic development of a child which is possible only when parents and teachers form a strong partnership. The foundation for good parent teacher relationship is a frequent and open communication and a clear understanding of what is better for each child. Keeping this in mind, an ‘Orientation Programme’ was organized for our kindergarten parents. A team of Psychologists from “Prayatna Institute” conducted sessions on the topic “Enhancing the learning potential of children”. The question and answer session which followed was very lively with parents clarifying their doubts. The team also held individual sessions for parents who wanted further clarifications.
